SCIENCE IS CULTURE: CONVERSATIONS AT THE NEW INTERSECTION OF SCIENCE & REALITY

Harper Perennial. 1 Paperback(s), 2010. soft. Book Condition: New. Today, science is culture, notes the founding editor of Seed magazine. As global issues like energy and health become increasingly interconnected, and as our curiosity about such knowledge as how the mind works or why the universe is expanding become more complex, we need a new way of looking at the world that blurs the lines between scientific disciplines, and likewise the borders between the sciences and the arts and humanities....

Reviews

This publication is indeed gripping and interesting. It can be filled with knowledge and wisdom You will not really feel monotony at anytime of your time (that's what catalogues are for regarding in the event you request me).

-- **Prof. Muhammad Lesch MD**

Here is the best publication i have go through right up until now. Better then never, though i am quite late in start reading this one. Its been developed in an remarkably basic way in fact it is simply right after i finished reading this pdf through which basically transformed me, change the way in my opinion.

-- **Colin Bergnaum**
