Reviews

This pdf will not be simple to start on reading through but extremely enjoyable to see. I have read and i also am sure that i will planning to read through again once more in the foreseeable future. You wont really feel monotony at whenever you want of the time (that's what catalogues are for relating to if you request me).

(Mallory Kertzmann V)

INSURANCE ENGINEERING VOLUME 20

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1910 Excerpt: .and Inflammables.--Laws meager and inadequate. No official responsible for enforcement. No adequate inspections. Local conditions fair, except for some excessive amounts of gasoline, carelessly handled, and some rubbish. Electricity.--No supervision or inspection. New inside work only fair, some old work poor. Wires of one telephone company underground in business district. Overhead wire obstructions serious in principal mercantile district. No recent trouble from electrolysis; no tests made by water company. Conflagration Hazard.--In the principal mercantile district, construction is mostly low and small, but is largely joisted brick with considerable frame and there is practically no protection to vertical or horizontal openings. Although the fire department is efficient, considerable dependence is placed on streams direct from hydrants, which would not be effective with the pressure now carried; overhead obstructions are bad, streets are of only fair width, the fire alarm system is in BOSTON S FIRE PROTECTION. 221 purely housed at headquarters and practically no outside aid is available, making serious fires possible; during the occasional high winds, the probability of fires extending beyond the block of origin is moderately high. Minor mercantile districts and manufacturing plants are small or isolated and do not present serious conflagration hazards, although the individual hazard is high, owing to a weak distribution system. The saw mill and lumber district would make serious fires at times of high winds. The compactly built, shingle roofed residential sections have a considerable hazard. BOSTON S FIRE PROTECTION COMMENTS OF MAYOR FITZGERALD. THE lumber yard conflagration of...
